

Profile of Chariho Elementary Enrichment Students

Students who are nominated should be willing to

- work independently on a project while in the classroom
- spend time in the library/out of the classroom
- spend a prolonged period of time on a project

Students who are nominated should be able to
“test out” of material to be covered in the classroom.
The purpose of the program is to provide highly capable
students with *different* work, not *more* work.

*

When these three elements
converge, that's when a
student has a successful
enrichment program
experience

This program is intended for “certain people (not all people),
at certain times (not all the time),
and under certain circumstances (not all circumstances).”
