

MMR Immunization Form

Per the Department of Health, all individuals working for the Chariho Regional School District are required to show proof of immunization if born after 1956. All such personnel must comply with the following requirements of MMR (measles, mumps, rubella):

1. Evidence of natural immunity as a result of serologic testing, or documentation of physician diagnosed measles, mumps, and rubella, or
2. Must have evidence of having been immunized against measles, mumps, and rubella with a live virus vaccine on or after 12 months of age. (Persons vaccinated prior to 1968 must be revaccinated), or
3. Must show documentation that he/she is not fit subject for immunization for medical reasons.

If your date of birth is after 1956, please submit proper documentation.

In order to allow us to comply with recordkeeping requirements, please indicate your date of birth (whether it is before or after 1986)

Name: _____ DOB: _____
