

STUDENT GOALS

Students are the first concern of the district and must receive the primary attention of the committee, administration, and all staff members.

To fulfill obligations to students, the committee will strive to formulate educational policy related to students. A similar commitment is expected of the administration and staff members.

In pursuing this primary goal, it is imperative that the good of the individual student be kept paramount. Each student shall be considered and treated with respect as an individual. The committee, administration and staff shall work together to establish an environment conducive to this end through meeting the following goals regarding students:

1. To protect and observe the legal rights of students.
2. To enhance the self-image of each student through helping him/her feel worthy and through a learning environment which provides positive encouragement.
3. To provide an environment of reality in which students can learn personal and civil responsibility for their actions through meaningful experiences as school citizens.
4. To deal with students in matters of discipline in a just and constructive manner.
5. To provide, in every way feasible, for the safety, health and welfare of students.
6. To promote attendance and good work habits.
