The Chariho School District's Strategic plan has a focus on student support. Our team believes that the well-being of every child is necessary for optimum learning. In an environment that emphasizes school safety, everyone must be treated with kindness, dignity, and respect. We will be engaging our school community in monthly district awareness activities that help to promote kindness.

When we are empathetic and kind, it can improve confidence, happiness, and overall optimism. And when others experience or witness our kindness, it may encourage them to do some good of their own. Collective acts of kindness lift up both individuals and communities, which is why sprinkling a little extra sweetness out into the world throughout each month will be an ongoing goal. We hope you will join us while we work to spread kindness.

Improving Student Attendance is a goal for every school in Chariho. RIDE has created a dashboard that is updated daily, helping school leaders to identify attendance issues early and often. We define chronic absence as missing 10 percent or more of the school year. Through this dashboard, you can see the total student enrollment at each school, the number of students on track to be chronically absent, and the percentage of students on track to be chronically absent. Please keep in mind that this captures students who have been absent for 10 percent or more of the school year so far, and numbers will fluctuate throughout the school year. [Click here](#) to check back regularly to see how our schools are doing.
