

Chariho Regional School District

Employees of the Month

January 2016

Nathan Potter **Computer Technician**

I would like to nominate Nathan Potter as employee of the month. Whether face to face or through email Nate is always prompt and professional in his dealings with me and with all teachers that I have observed. He is informative and truly a problem solver. He never allows the stress of the position to interfere with his interactions with the staff. He is patient and kind in all interactions. He works hard to diagnose and then deal with the issues that are brought to him. He works well with students and staff alike.

I do have a soft spot for my former students, that is a fact, but his professionalism makes me incredibly proud. I enjoy working with him and feel he truly deserves this honor.

Jennifer Ricci **Grade Four Teacher – Hope Valley School**

I would like to nominate Jen Ricci for the January Employee of the Month. Mrs. Ricci is such an influential and positive role model in our school community. She is devoted and passionate in all that she teaches. Students, parents, and faculty look up to her for guidance, assistance, and support. Mrs. Ricci certainly follows the district mission: All Kids, All the Time. She is by far a well-deserving recipient of this award.
